1. What is the most challenging aspect of the coursework task?

ANS: It was difficult to write code in the proper format that was provided. I have taken lots of time at first to understand the logic of the template. It was also difficult for me to match my logic with the code. Despite these difficulties, I enjoyed a lot while coding and gaining a lot of experience.

2. How did you go about completing the task?

ANS: At first I read the instructions clearly. After taking lots of time while reading I tried to implement all of my logic. I got failed 2 times and I take help from youtube and some websites for help. After reading carefully I finally did it.

3. What have you learned over the course of completing this coursework task?

ANS: In this coursework, I know better knowledge to write code within some criteria. I have implemented my all concept from day 1 of coding in this coursework. Managing all the functions was pretty hard and challenging. Overall, completing this coursework boost my confidence in a programming language.
